

Name: _____

Level 3 Geography
Achievement Standard 91432
Analyse aspects of a geographic topic at a global scale
3 Credits Version 1

Sand takes over the world

Achievement Criteria

Achievement	Achievement with Merit	Achievement with Excellence
Analyse aspects of a geographic topic at a global scale.	Analyse, in depth, aspects of a geographic topic at a global scale.	Analyse comprehensively aspects of a geographic topic at a global scale.

Introduction

This assessment task requires you to analyse aspects of the geographic topic of Desertification on a global scale, and present your findings.

This is an individual task and is to be completed in your own time.

You will be assessed on how comprehensively you analyse the topic. This includes describing the global pattern which may be spatial or temporal, fully explaining the factors and/or processes that contributed to the pattern, and explaining and evaluating the social and economic significance of the topic for people on a global scale, showing insight and use of geographic terminology and concepts. It is important to remember that your analysis of aspects of a geographic topic at a global scale is being assessed, not the presentation.

Resources

Make use of the resources on the Geography Weebly page, as well as your own additional research to help you with this assessment.

Task

You are to write a report that includes the following:

- a description of a global pattern related to your geographic topic on desertification. This could be presented as an annotated map or graph. The pattern must be clearly described using appropriate geographic terminology.
- a full explanation, including supporting evidence of the factors and/or processes that contribute to the global pattern of your topic of desertification. This could be presented as a diagram with added explanatory notes of sufficient depth to show your complete understanding of this aspect of the topic.
- a detailed explanation and evaluation of the social and economic significance for people of the global topic of desertification.
- use of appropriate geographic terminology and concepts, and show insight by linking ideas
- reference to regions or nations across different continents or hemispheres throughout your analysis.
